Available size: 1m x 10m or customized sizes  
Thickness: 2mm

**1m x 10m**  
**1.2 m x 10m**

## Antistatic Solution

3 L

500 ml

## Sticky Mat

Adhesive layered, straight edged mats can quickly, effectively remove traffic dirt from wheels and dust from the soles of shoes, to keep the clean environment. Each Sticky Mat is composed of multiple layers of polyethylene film. Laminated together into a stack. Each layer is coated with a unique hightack or low tack adhesive, and the working surface is smooth. Easy to use. When the surface layer is contaminated, simply peel off the top layer and throw it away. Mainly used for electronics, computer, instrumentation, medical-device, Pharmaceutical, aerospace and nuclear industries.

Spec	Layer
24"X36"	30 Sheets X 8 Mat / Box
26"X45"	30 Sheets X 8 Mat / Box
